SUPPLEMENT TO FIRE WARDEN REPORT

The Warden and Deputies want to again thank the citizens of Plainfield for the good fire record they maintained in 1944. Due to the increased forest fire hazards and diminishing supplies, and available man power, the State Forestry Department has restricted the issuance of fire permits, by Wardens, only when it rains.

I trust every Citizen will take the utmost precaution in regard to smoking and the use of mechanical units. Statistics show that more than 98 per cent of all fires in New Hampshire are man-caused.

The Public controls the answer to the 1945 fire record.

PALMER C. REED,
Warden.

REPORT OF SCHOOL NURSE 1944 - 1945

Your school nurse is glad to report that better health, better personal hygiene, more interest in preventive and corrective dentistry was noted among the school children at annual health inspection.

There is a growing need for a broader and better distribution of dental care through our rural schools.

Sixty-three pupils attended the dental clinics, directed by Dr. William Stuart of Claremont, May 1, and 2 and August 21 and 22, 1944. Acknowledgment is due the local Red Cross for assistance, to friends and parents for aid and interest, and the cooperation from all the teachers.

Below is a summary of the defects found at the time of health inspection this year.

Defects Found		Corrected	
Faulty nutrition	8		3 improved
Poor posture	8	"	4
Defective vision	4	"	4 glasses
Enlarged tonsils	6	"	4
Defective speech	4		4 improved
Nervous habits	6		
Defective teeth	10	"	63 at clinic

Pupils were accompanied to Hanover Hospital and Eye Institute for treatment.

Total number of school visits	40
Total number of home visits	34

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Plainfield:

I submit herewith my eleventh annual report on the activities of the School Board, Superintendent, teachers and pupils, in the Plainfield School District for the past twelve months. This is the twenty-sixth such report since state wide supervision has been established in New Hampshire.

The usual list of those who are attending high school, the prize winners and the children graduated in June 1944 from our elementary school are attached.

Teachers

Two teacher changes are noted: one in the Plainfield Plain Grammar School and one in the Willow Brook School. In the latter School Mrs. Marion Cutts Hall has been serving as teacher. Mrs. Hall had previously taught for a number of years in Plainfield and Lebanon. In the Plainfield Grammar School, Bertha Berry, who has taken the major part of her senior year at Keene Teacher's College and who will complete the work this summer is the new teacher.

School Buildings

At Meriden the interior and exterior of the building was cleaned and repainted. Ever since this building was erected the paint on the outside has given trouble by peeling. All loose paint was removed in the work last summer and a priming coat, largely of oil ,turpentine and white lead was applied. It was hoped that this would penetrate the wood sufficiently to make a binder for the final coats.

The interior of the East Plainfield School and the Methodist Hill School were both repainted. At the Methodist Hill School new storm windows have been put on the northwest side which should add something to the comfort in the winter. At Plainfield Plain new front steps were built. After school opened it was found necessary at this building to repair the furnace. Delay in securing parts retarded the efficiency of the furnace for the first three or four months but it is now in good repair.

I recommend that we save enough out of our school balances so that we can, when peace comes put in a cement floor in the cellar of the Meriden School and install sinks at both the Meriden and Plain schools and the other buildings, if necessary, to facilitate the serving of noon luncheons.

Health

The opening of school was delayed last September for nine days in order to allay the fears of parents and citizens when the infantile paralysis epidemic was in nearby communities. This seemed like a considerate and wise move on the part of the School Board and it was expected that parents would co-operate in making up the work under a revised school calendar. In two schools co-operation has not been as high as it should be. These are Meriden and East Plainfield. In the New Hampshire School Laws the only reference to holidays is Memorial and Armistice Day. Any other holidays would be determined by vote of the School Board.

High School Pupils

The twelve or more children who attend Kimball Union Academy free of tuition charge reduces the cost of the district by nine or ten hundred dollars, depending on the average state cost per pupil on which the tuition charge is based. I would like to recommend that we use this money to further the opportunities of those children attending high schools giving practical arts courses, such as shop work, commerce, home economics and the like as well as the college preparatory course. This could be done through subsidizing the cost of transporting children to high school. The school law, at the present time, allows districts to raise money for this purpose. It has been talked of as a state aid project and it probably will be in the near future. This seems in line with the trend of the time, since the high school education these days is as necessary and more so, than was what was formerly known as the "common school" education.

Budget and State Aid

The budget for support of schools this year is higher than last, since we are not carrying over as large a balance, but it is lower than that of two years ago. State Aid will probably be in the same amount as in previous years. Teachers for elementary schools are very scarce and this

must be taken into consideration when we think of finances for school purposes. These days the district that pays the better salary is the more likely to be assured of teachers.

Conclusion

I would recommend that we carry a sufficient balance in our school accounts so that we can make the indicated repairs at the Plain and Meriden Schools, as well as some playground equipment for all schools, whenever these materials become available. I recommend further that serious consideration be given to subsidizing the transportation of pupils to high schools.

I am grateful to the teachers and pupils who have helped in all of the things that have tended to make the schools better and run smoothly. I wish to express appreciation to the members of the School Board for their consideration and helpfulness.

Respectfully submitted,

WILLIAM J. ENGLISH,

Superintendent of Schools.

ANOTHER ENEMY TO CONQUER

Here is a home front fight that everyone can get into. Last year in this State 558 brush and forest fires burned over 4,648 acres of land, of which 2,788 acres were valuable timber and young growth. With available manpower the lowest of any year since the war started, you can help to keep this loss down by preventing these fires from starting.

Keep in mind these simple rules:

1. Always get a permit from your forest fire warden before starting any fires in the open. Burning under certain conditions is permitted.
2. Never burn unless you have enough help to control your fire—a permit does not excuse you of negligence in case it gets away.
3. Always report any uncontrolled fire promptly to your forest fire warden. Minutes lost are acres lost.
4. Be especially careful with cigarettes, matches and pipes. Smokers caused most of our fires.
5. Never leave a fire unless it is dead out. You can't feel safe while there is a spark left.
